In September 2015, Moldova adopted the Sustainable Development Goals (SDGs), alongside all other Member States of the United Nations (UN), to end poverty, fight inequality and injustice, and tackle climate change by 2030.

These aspirations underpin the Republic of Moldova–United Nations PFSD with the Government of Moldova for the period 2018–2022, which is a medium-term strategic planning document aimed at assisting Moldova to achieve its SDG targets by supporting the pursuit of European integration with a rights-based and inclusive approach.

The PFSD describes how the Government and the United Nations, drawing on the full range of expertise and resources of the United Nations system, and in close cooperation with international and national partners and civil society will work in partnership to achieve development results.

The ultimate objective of the PFSD is to enlarge people's choices and opportunities, and promote prosperity, resilience and sustainable development in Moldova.

Priorities and outcomes

The document has been developed based on a highly participatory process which resulted in the selection of four priority areas, each with a strategic outcome. These outcomes correspond to key national development and human rights priorities, and associated are closely aligned with the SDGs and targets.

Cross-sectoral linkages between the issues addressed under each priority area are ensured by systematic application of the fundamental: United Nations programming principles – leave no-one behind; human rights, gender equality and women’s empowerment; sustainability and resilience; and accountability – as cross-cutting issues, and generally by a strong focus on poverty alleviation.

The PFSD reinforces the strong partnership between the Government and United Nations system agencies to achieve country priorities. The Government has the primary responsibility and accountability for achieving the planned PFSD outcomes. Based on their comparative advantage in Moldova, United Nations agencies will contribute to policy advice, in accordance with international norms, standards, and best practices, and build capacity at national and local levels – both within and beyond Government institutions – to strengthen the implementation and monitoring of national strategies, policies and plans. Emphasis is placed on those strategies, policies and plans that align strongly with the SDGs and targets, and that provide the fundamental basis for cooperation with United Nations system agencies.
Required financial resources

To bridge the funding gap, the United Nations continuously and actively engages in resource mobilization efforts, consolidating and broadening its partnership base.

Activities deployed in 2018–2019

In order to achieve the objectives set UN Moldova system has deployed over 120 activities throughout the country as represented below:

The number of activities shown on the map are based on the UN Joint Working Plans. Additional activities might be implemented by the agencies.

For the period 2018-2019 UN Moldova has invested over US$ 51,000,000 to implement the PFSD and achieve results in the areas mentioned above that are aligned with the 2030 Agenda for Sustainable Development.

About UN Moldova

The Republic of Moldova joined the United Nations in 1992. Since then, the United Nations system supports the Republic of Moldova in achieving its major development goals and fulfilling its vision to be a prosperous and modern European country.

Today, over twenty resident and non-resident UN specialized agencies, funds and programs work in Moldova. To ensure programmatic coherence and efficiency among different UN entities, the UN in Moldova has adopted the Delivering as One approach.
